

The company AVSN d.o.o. employs a team of professionals with a high level of technical knowledge, gained through many trainings and years of field experience. The numerous projects deployed are developed from concept to completion and maintenance. They have confirmed the belief that philosophy "one solution for all customers", promoted by most of our competitors is wrong. In accordance with our business principles that guarantee a personalised approach and a search of the most appropriate solution together with the customer, our customers are served not only with the technical equipment, but also training and support.

Mission

The company AVSN d.o.o. has since its beginnings been associated with supply of professional quality services, its customers trust and a superb cooperation with its business partners. Most of our customers have so far understood that buying cheap is expensive in the long term, while buying quality pays. The value we believe in is a long-term and open attitude with our customers, founded on mutual trust and common growth. Our team realises the most important factor is to comprehend our customers actual needs and understanding their desires and expectations. By constructive cooperation with our suppliers and business partners we have been allowed to relay the real market needs into high-end professional products and quality services. We follow the belief that mutual efforts bring success to both, customer and us.

Vision

By following, improving and adding functionalities to the fast evolving technological solutions we will keep adding new value and application to our products. By investing in knowledge and education of our employees, superb quality products and good cooperation with our business partners we will achieve a growing reputation on our target market. The goodwill of our company will become a synonyme of professionalism and quality in the field of hotel TV systems. Our goal is to become the market leader in the South European region.
